The roots of homelessness and addiction are complex. But we do know that the best solution for lasting change comes in relationships! It’s people coming in contact with people.

Our One to One Ministry pairs individuals in the Mission’s Men’s Recovery Program with mentors.

We’re passionate about walking with men, not just for the short term, but into long-term transformation.
Would you consider joining us as a mentor?

We like to say: “We have them outnumbered.” There are more people who care about people in need than there are people in need.

Men, if you’d like to be a part of this solution and:

- You are a follower of Jesus
- You are passionate about our community
- You desire to positively influence the lives of other men
- You have up to one hour a week to pour into the life of another man

We’d love to talk to you today!

Our goal is to make sure that every single man in our Men’s Recovery Program has a mentor.
